We provide effective mining equipment, comprehensive services based on our clients' specific needs, and labour hire solutions.

CEO Statement

We provide high-quality services, effective mining equipment and labour hire solutions.

As the Founder and Chief Executive Officer, I am pleased to introduce you to a company that has moved forward step by step and congratulates itself on being a forward-thinking organization, meritorious and competent. To achieve this, we have always had the full satisfaction of our customers as the primary concern. With this in mind, we have developed an expertise in which our values are based on perseverance, quality, partnerships, and active listening of our customers.

The company is therefore able to take over some of all your projects or complete your maintenance team to do your planned shutdowns. In this regard, all our activities continue to grow, and we now operate within small and large companies in the Haut Katanga and Lualaba provinces but also within recognized multinational corporations in the Democratic Republic of the Congo.

Over the years and projects, our group has built a solid reputation. Thanks to the teamwork and commitment of our employees to excel in their work and carry out our customer's projects with the utmost professionalism and highest quality. The strength of our group lies in our great team spirit and our energies gathered in maintaining and increasing our quality standards, to always offer the best to our customers.

BOSS K INCORPORATED SARL
WE MAKE YOUR BUSINESS MORE EFFECTIVE

We provide effective mining equipment, comprehensive services based on our clients' specific needs, and labour hire solutions.

Our Values

We provide high-quality services, effective mining equipment and labour hire solutions.

Boss K's vision is to fulfil clients' requirements to have long-term relationships, to stay among the leaders in the industrial mechanic sector throughout the DRC, and to share its expertise to support its clients in their development projects.

Boss K's mission is to always provide innovative and required solutions mixed with high-quality skills and professional expertise. We are dedicated to our customers and aim to fulfil their specific needs by offering professional, personalized, and practical services.

With over five years of experience, Boss K has been delivering results and solutions. He is also consistently producing long-lasting impacts for his clients.

We supply our customers, with the best mining equipment, and services, including labour, hire solutions, and panel beating of high-quality spares.

100%

Clients satisfaction all over the
Democratic Republic of the Congo.

Our Services

At Boss K, we have worked and exceeded expectations in various challenges and work sites. Our professionalism ensures that we always deliver on time and, provide outstanding service.

We have consistently proven ourselves showing that quality and excellence are our nature. We help our customer to solve all their needs from their investment to its return.

CIVIL & ROAD WORK CONSTRUCTION

We offer flexible civil infrastructure projects depending on customer needs. Our involvement in civil projects starts from consultancy and client representation to project management, supervision, and technical assistance.

Specializing in civil & road works construction, Boss K has the ability to execute projects varying in size from the construction of health facilities, houses, roads, site roads, drain culverts and much more.

HEAVY EQUIPMENT

We Service earth moving equipment such as Bell, CAT, Atlas Copco, Sandvik, Hitachi etc. We also deal with the leasing and hiring of heavy equipment such as excavators, rock-breakers, front end loaders, TLB, underground loaders such as Atlas Copco, Sandvik etc.

HEAVY EQUIPMENT

We offer major component repair services on the above-listed earth-moving equipment. All this with labour work being included. The services are caterpillar cylinder head reconditioning, valves seat, bell loader 05 repairs and reconditioning, torque converter, etc.

We also offer major spare parts for equipment reparation such as gasket set for cat d8r 9emo6392, transmissions, axles, disc friction, seal O-ring, seal D-ring, piston, joint, piston a glaces, John Deere Valve Solenoid AT338547, etc.

We supply full Personal Protective Equipment (PPE), from the workwear, footwear to the face and head protection.

We also supply the extreme hazards protective equipment that meets the international testing requirements such as the Dromex Arc Flash, Dromex Frie, Dromex Chemical and Dromex High Cut Dangers.

LABOUR HIRE

We offer highly qualified engineers in various professions and technicians for Diesel Fitters, Plants fitters, Boiler Makers, Power & Auto Electricians, Air Conditioning etc.

PIPING SOLUTIONS

We have been developing and implementing various engineering pipeline projects in the dredging, mining, and processing industries.

These projects are based on innovative ideas for using special flexible slurry pipes floaters and other components to develop individual projects for hydro transport, dredging, sand mining, and cleaning of sludge pits.

TAILINGS STORAGE FACILITIES

We share a detailed design of the storage facility with the on-site Tailings team. We provide a plan of the construction method, select the equipment (pumps and others), perform the piping configuration and stormwater control, and operate and manage the tailings storage facilities.

ALL WELDING CONCERNS

Concerning HDPE Pipes, HDPE Geomembranes, Geotextiles, PVC, PVDF, PP, E-CTFE and PETG, we do the below-listed welding:

- At hot air;
- At hot element;
- Per friction;
- Per extrusion, with industrial electricity.

We also do pipelines maintenance and Geomembranes installation.

Boss K also supply reagents such as sulfur, coagulant, frother, Xanthate, Lime, MgO, flocculent and more

”

CONVEYOR BELT

We supply durable conveyor belt parts from the structure to the pulley and the belt. They can be vertical conveyor, with wide feeder belts, or large steel cable belts, all types are available.

We also provide excellent, reliable, and high-quality splice services.

CAR SEAT UPHOLSTERY / PROTECTION DOORS HARDTOP

We specialize in car reconditioning. We offer a refined car seat reupholstering service and manufacturing and fixing car window and door protectors to protect them from intruder attacks.

SUPPLY OF MINING EQUIPMENTS, AND SPARE PARTS

We supply all mining equipment parts, and heavy machinery mining parts. We provide parts and components for a wide range of mining equipment, and heavy machinery including mechanical spares, crusher parts, pumps, conveyor belts, and rollers.

Electrical components and spare parts (Motors, Generators, Transformers etc.). Pneumatic and hydraulic spares (Pumps, cylinders, valves etc.) Service Kits and OEM Filters (Donaldson, fleet guard, etc.)

PANEL BEATING AND SPRAY PAINTING

We offer panel beating and spray-painting using skills such as planishing and metalworking techniques, welding, the use of puffy fillers, and other crafts.

We repair bodies of heavy equipment, buses, and light vehicles after damage.

We carry our Spray painting jobs for all vehicles in any condition.

Our growth has been based on maintaining relationships with our clients across a broad range of the mining industry.

”

BOSS K INCORPORATED SARL supplies, installs and maintains world-leading fire suppression systems and technologies from the conveyor solution, the transformer solution, the vehicle suppression, and the blaze buster to the fire pump sets and storage tanks. We offer some very effective fire suppression systems and solutions that make use of leading misting technology. Each one of them is explained below. BOSS K INCORPORATED SARL also provides maintenance services for the extinguishers.

1. Conveyor solutions: A water and foam mist Localised Suppression System (LSS) specially designed for conveyor belt installations to mitigate and suppress fire hazards.

2. Transformer solutions: A fire Localised Suppression Systems (LSS) designed to protect transformers and associated infrastructure.

3. Vehicle Suppression Systems: An indirect systems consisting of cylinders, hydraulic fire suppression hose as well as specialised discharge nozzles and are installed in engine compartments of heavy- and light duty vehicles, buses and armoured vehicles to suppress fires.

4. Blaze Buster: A set of units developed as a fast and effective alternative to major fire extinguishing equipment. A blaze buster consists of 4 x 230L cylinders and a high-performance cannon. It is also fitted with a hose reel with an accompanying BB Gun (discharge nozzle).

5. Fire Pump sets and storage tanks: Fire Pumps are essential components of a building's, Warehouse and in the mining industry fire protection system. They are critical in distributing water through sprinkler, deluge and water reticulation feeding hydrants and hose reels systems where water pressure from water mains and firefighting equipment cannot reach. Water storage tanks are tanks that supply water for water-based fire protection systems

Our Projects

Some of the key projects we have led and worked on.

PROJECT #01

Construction of tank house basement wall td 52 at Mopani Copper Mine, Zambia.

PROJECT #02

Construction of a storey house for a particular On Aaron Ngwashi avenue in Lubumbashi, DRC.

PROJECT #03

Roofing of Kabitaka Clinic at Kansanshi Copper Mine, Zambia.

PROJECT #04

Repair of bell equipment's motor at Ruashi Mining, DRC.

BOSS K INCORPORATED SARL
WE MAKE YOUR BUSINESS MORE EFFECTIVE

At Ruashi mining, Boss K has completed several heavy equipment and light vehicle repair services such as:

- Removing an old engine and fitting a new one on TATA Bus and, providing the suspension spare parts.
- Reconditioning the CAT's cylinder head and seat valves.
- Fixing and replacing heavy equipment's disc friction, seal o-ring, piston joint, piston a glace, and seal d-rings.
- Completing all workshop work on ENGINE 6068HDW74. Replacing, repairing, and fixing the engine block and the cylinder head. Performing the injection pump test, testing the injector and the crankshaft.
- Repairing and replacing vehicles' windscreens (Auto glass fitting).
- Fixing the expendable trellis (sheet) and painting.
- Repairing all front and rear axles of a CAT loader 950 GC.
- Repairing and rebuilding all Bell loader's engines and providing spare parts such as slides, rings gasket, cylinder head and bearings.

PROJECT #06

Manufacturing and fixing protection for TFM security vehicle's windows, DRC.

PROJECT #07

TFM's car seats upholstery and delivery on site, DRC.

PROJECT #08

Construction of tank house basement wall TD 52 ball mill No 2 at Mopani Nkana Mine, Zambia.

A D6G dozer after the truck chain rehab at Boss K Incorporated SARL workshop in Lubumbashi, DRC.

PROJECT #09

Repairing scratches, dents and other damage to bodywork in Zambia.

PROJECT #10

Installation project of 6500 M & 630 MM HDPE pipe at Lumwana WSF Mine in Northwestern Zambia.

BOSS K INCORPORATED SARL
WE MAKE YOUR BUSINESS MORE EFFECTIVE

At Metalkol, the Boss K Inc. team has performed several works to rehabilitate the car park.

First, some preparatory works have been performed, such as dismantling the old tarpaulins, scrapping the old structure, reinforcing the structure, and completing some welding work.

Then, to finalize the work, the missing structure's parts have been supplied and installed. The painting and floor marking paint have been completed, and the supply and installation of new tarpaulins have also been completed.

PROJECT #12

Welding and installation of 200 MM and 160 MM pipes in PEHD at a distance of 6 000 M at Kisanfu Mining (KIMIN), Kipushi, DRC

PROJECT #13

Installation, repair and welding of geomembranes of 20 000 M2 at Chemaf, Lubumbashi, DRC

PROJECT #14

Protection of a concrete tank with geomembranes PEHD at the Iverland Mining Congo acid plant.

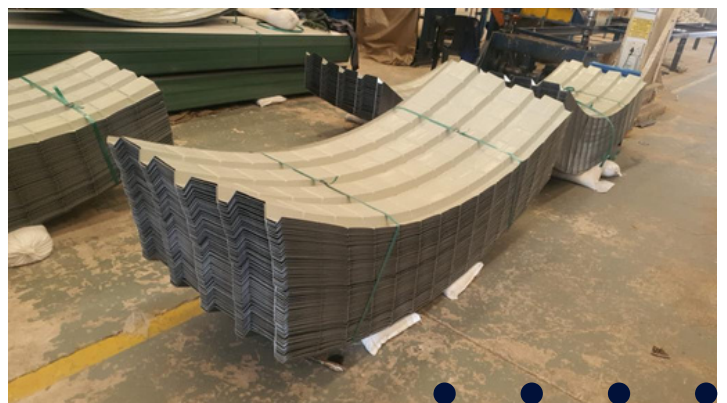

PROJECT #15

Repair and welding of geomembranes at Tailing Ponds of 20.000 M2 at Somika Lubumbashi, DRC
